

MENTOR-MENTEE REPORT

Academic Session:2025-2026

The Mentor-Mentee system has been successfully adopted by the Department of Physics with the goal of offering academic assistance, emotional support, and solution to the students' problems.

To guarantee individualized attention, each mentor was paired with a group of mentees. Meetings were held on a regular basis to examine issues pertaining to subjects, attendance, and academic achievement. Books and e-learning materials, problem-solving, language development, and enhancing communication skills were all given special attention. Mentors attempt to address psychological and personal issues, creating a friendly and encouraging atmosphere. Participation in the department's or college's extracurricular and literary events was encouraged. Students are further assisted in exploring opportunities for higher education, competitive exams, and ICT-based skill development.
