Mentor-Mentee Report

Academic Session 2026–27

1. Mentorship Report

The Department of Mathematics continues its dedicated mentorship program for B.Sc. and M.Sc. students aimed at fostering academic excellence, analytical growth, and holistic development. Under this initiative, faculty mentors conduct structured, periodic interactions to track individual academic progress, identify foundational learning gaps, and offer targeted guidance.

Emphasis during this session is placed on strengthening core mathematical concepts, improving problem-solving abilities, and cultivating efficient self-study habits. Beyond regular coursework, mentors encourage active participation in seminars, academic discussions, and co-curricular activities. Mentors also provide personalized counselling regarding time management, exam preparation strategies, national-level competitive examinations (e.g., CSIR-NET, GATE, IIT-JAM), and higher research career pathways. This ongoing initiative continues to nurture a supportive, academically vibrant, and student centred ecosystem within the department.

2. Action Taken Report

Building upon feedback gathered from B.Sc. and M.Sc. students in preceding evaluations, the Department of Mathematics has implemented targeted instructional and co-curricular enhancements:

- ***Applied & Computational Integration:*** Expanded practical exposure by integrating hands-on computational tools (Python/MATLAB) and real-world mathematical modelling modules into supplementary learning sessions.
- ***Academic Support Systems:*** Organized regular remedial classes, dedicated doubt-clearing sessions, and specialized problem-solving workshops to strengthen core subject comprehension.
- Resource Optimization: Reviewed and updated curriculum reference lists and learning resources to ensure improved accessibility and clarity for students.
- ***Career & Skill Orientation:*** Conducted career guidance sessions focusing on competitive exam readiness and career avenues in applied mathematics and data sciences.
- ***Continuous Monitoring:*** Mentors maintain regular follow-ups to monitor progress, address individual learning barriers, and ensure personal well-being.

3. Feedback Report on Mentorship Program

Feedback collected from B.Sc. and M.Sc. students regarding the 2026–27 mentorship program remains overwhelmingly positive. Key takeaways from student responses include:

- ***Strong Mentor Support:*** Students highly appreciate the accessible, structured guidance and approachable stance of mentors in resolving academic and conceptual difficulties.
- Disciplined Academic Growth: The regular review cadence has assisted students in building disciplined study habits and improving classroom engagement.
- ***Safe Communication Platform:*** Students expressed confidence in utilizing mentorship meetings to discuss both academic challenges and personal growth concerns.
- ***Future Recommendations:*** Student suggestions highlight a desire for an increased frequency of interactive sessions, specialized workshops for competitive entrance exams, and further hands-on software training. Overall, the program successfully maintains a constructive, encouraging learning atmosphere that drives both academic accomplishment and personal confidence across all batches.
