The Training & Placement Cell  
VSSD College  
Kanpur, Uttar Pradesh

Subject: Memorandum of Understanding (MoU) for Training and Internship Programs

Dear Sir/Madam,

We are pleased to present this Memorandum of Understanding (MoU) between OptiFlow Technologies and VSSD College, Kanpur.

The objective of this collaboration is to provide students with practical industry exposure, professional skill development, and career-oriented guidance.

Under this collaboration, OptiFlow Technologies will conduct industry-oriented training programs, internship opportunities, summer training sessions, skill development classes, and placement preparation programs for the students.

These programs are designed to enhance students' technical knowledge, communication skills, and overall employability by providing real-world project experience and professional mentorship.

Students interested in participating in these programs will be required to register individually and pay the applicable training fees as per the course or training program.

We look forward to a meaningful academic-industry collaboration that benefits students and supports their career development.

**Regards,**

Operation Head  
OptiFlow Technologies
